Thrissur, Kerala • +91-7306468012 • Email: vyshnavics652@gmail.com • LinkedIn GitHub [Portfolio]

Software Testing enthusiast and MERN Stack Developer dedicated to ensuring application quality through systematic manual and automated testing. Committed to writing clean, testable code and building high-performance web applications that meet professional standards. Eager to contribute to a collaborative team and leverage my analytical skills to drive software excellence.

EXPERIENCE

MERN STACK INTERN
CAMERIN FOLKS | KOCHI | JANUARY 2025 - JULY 2025

- Developed and maintained full-stack web applications utilizing the MERN stack.
- Built and integrated RESTful APIs with Axios for seamless front-to-back communication.
- Implemented secure JWT-based authentication for user access and session management.
- Utilized Postman to test, document, and debug API endpoints for reliability.

SOFTWARE TESTING SPECIALIST
SOFTEN TECHNOLOGIES | KOCHI | SEPTEMBER 2022 – FEBRUARY 2023

- Performed manual and automation testing for web/mobile applications using Selenium.
- Designed detailed test cases and verified bug fixes to ensure functional integrity.
- Collaborated with developers to reproduce issues and validate resolutions effectively.
- Followed SDLC, STLC, and Agile practices for structured and efficient test execution.

PROFESSIONAL SKILLS

- **Testing:** Manual & Automation Testing, API Testing (Postman), Debugging.
- **Frontend:** React.js, JavaScript, HTML5, CSS3, Bootstrap.
- **Backend:** Node.js, Express.js, JWT Authentication.
- **Database:** MongoDB (Schema Design, Aggregation), SQL.
- **Tools:** Git, GitHub, API Documentation.
- **Soft Skills:** Collaboration, Time Management, Attention to Detail, Quick Learning Ability, Strong Interpersonal Skills

EDUCATION

Master of Computer Applications
KTU University | Sree Narayana Guru Institute of Science and Technology, Manjaly, Paravoor. | August 2023 - May 2025

PROJECT

- **SWAG LAB – E-commerce Application Testing (Manual & Automation) -** Performed manual and basic automation testing for an e-commerce application by executing test cases, reporting defects in JIRA, validating APIs using Postman, and automating key user workflows using Selenium.
- **Bridal Collection -** Designed a feature-rich marketplace with bidding systems and secure payment integrations. I prioritized backend quality by conducting API testing via Postman to validate endpoints and status codes, while systematically identifying edge cases to enhance overall application stability.

CERTIFICATIONS AND WORKSHOPS

- MERN Stack Developer – Camerin folks Pvt. Ltd.
- Software Tester – Soften Technologies.
